COOPERATION WITH NISSAN – NIK. I. THEOCHARAKIS

RENT A VEHICLE WITH EASE

- Select an available vehicle or book it in advance
- Follow directions to the vehicle location
- Inspect and report any vehicle damages
- Unlock the vehicle via the mobile application
- Commute with optional 'Stopovers' (Temporary Parking Mode)
- Return/Lock the vehicle via the mobile application
- Rate your trip

SERVICE OPERATION MODES

- **Free-Floating within an operational area**
 - Park in any valid parking spot within a defined district
 - Ideal for compact urban areas
 - Great flexibility and freedom for drivers making one-way trips
- **One/Two Way Trips - area/zone-based**
 - Park anywhere within the designated areas/zones
 - Do not have to search for an open parking space, save valuable trip time

EASY 5 STEP SERVICE REGISTRATION*

1. Fill the required fields of the registration form
 2. One time mobile authentication through SMS
 3. Attach a digital copy of driver's license and ID
 4. Fast human verification of driver's licence and ID [**/***]
 5. Add your payment method (visa/debit card)
- Ready to use the service

* Registration process via mobile application (Android/iOS)

** Support of new and old Driving Licences

*** No Automation Validation Errors

SUPPORT ALL MAJOR PAYMENT GATEWAYS

stripe

STRIPE

Stripe is an American financial services and software as a service (SaaS) company headquartered in San Francisco, California, United States

vivawallet

VIVA WALLET (GREEK)

Viva Wallet is the first European entirely cloud-based neobank using Microsoft Azure with branches in 23 countries in Europe..

Braintree

A **PayPal** Service

PAYPAL/ BRAINTREE

Braintree, a division of PayPal, is a company based in Chicago that specializes in mobile and web payment systems for e-commerce companies

PayPal

PAYPAL

PayPal Holdings, Inc. is an American company operating a worldwide online payments system that supports online money transfers and serves as an electronic alternative to traditional paper methods like checks and money orders

ENVIRONMENTAL IMPACT

What really makes us proud is the environmental impact of our systems. Only last year with the help of our systems, the citizens biked more than **12 million Km and the CO2 savings was more than 2.500 tones.**

As **low and zero emissions zones** are becoming reality in more and more European cities, the future of urban mobility is electric and shared.

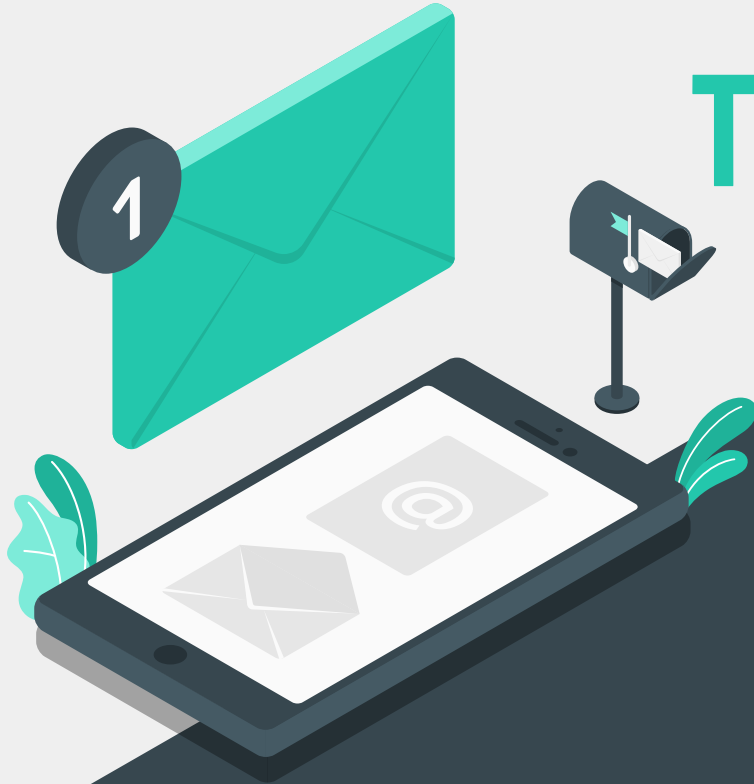

A REVOLUTIONARY TRANSITION STIRS THE WORLD OF TRANSPORTATION

Electrification is rapidly changing the automotive industry. Innovative technologies and new business models are transcending the industry.

- Telecom companies interested in car sharing and bike sharing
- Supermarkets are competed with gas stations
- IT manufacturers work on autonomous vehicles
- Car, bike and e-scooter manufacturers work on MaaS models
- Cars become electricity storage units and vehicle-to-grid systems are promoting renewable energy
